

# DIDSBURY PIONEER

VOL. XXIX, No. 7

DIDSBURY, ALBERTA, THURSDAY, FEBRUARY 18, 1932

\$2.00 per Year. 5 cents a copy

## Didsbury Dairymen Meet.

There was quite a large turnout at a meeting of Didsbury dairymen held Saturday afternoon for the purpose of enquiring into the cause of the low price of cream, and particularly table cream, which the district so plentifully supplies.

Mr. Wordie, the local creamery manager, and Mr. Carley, of the Union Milk Co. of Calgary, were present and answered a number of questions.

The main cause of the low price seems to be a lack of demand for cream, owing largely to depressed conditions in the cities, also there seems to be a large increase in production of cream. Both of these factors have their effect on the low price of cream.

As the depression is world wide, there does not at the moment appear to be any solution to the problem. On motion, it was agreed to continue to pay the annual city license fee of \$1.00 in order to keep the heads up to date.

## Mixed Bonspiel.

At a meeting held Tuesday night, it was arranged to hold a mixed bonspiel for local players this week.

There will be three events: Major, Minor, and Consolation, and the first games were arranged to be played on Wednesday evening.

## Fair Grants in 1931 Cost Govt. \$36,683

Grants to Alberta fairs last year cost the provincial government \$36,683, according to information given the legislature by Premier Brantley.

For Class "A" fairs \$6,000 was paid in grants, with \$19,484 going to "B" and \$11,198 to "C" and "D" fairs.

During last year there were two Class "A" fairs, three "B," and seventeen Class "C" and "D" fairs held in the province.

## Cards of Thanks

We wish to thank all our friends and neighbors for their kindness and help during our bereavement.

MRS. MARY DUNCAN AND FAMILY.

## The Bonspiel.

"The smoothest-run bonspiel ever held in Didsbury" was the opinion expressed on all sides with regard to the bonspiel held here last week. The weather was ideal and the ice was in excellent condition throughout the 'spiel. The visitors were enthusiastic on the way the schedule was kept to time, and there was very little delay in starting any of the games.

The following were winners of the various events:

Distributors: 1st, Dr. Liesemer; 2nd, Marks, of Innisfail; 3rd, Cook; 4th, Studer.

Merchants: 1st, McCloy; 2nd, Edwards; 3rd, Cook; 4th, Prout, of Bowden.

Consolation: 1st, J. Johnson, of Carstairs; 2nd, J. McDougall; 3rd, C. Saunders, of Oids; 4th, L. Liesemer, of Carstairs.

## At Innisfail Bonspiel.

Didsbury curlers are represented at the Innisfail bonspiel by: Chas. Cook, Dave Edwards, Tommy Johnson, and Jimmy Halton. Up to Tuesday night they had won four games and lost one, and had reached fourth in the Grand Challenge.

## Pioneer of Didsbury Dies at Age of 87

Mr. Halvor Stendahl, 87, oldest resident of Veteran, Alberta, and who for many years farmed east of Didsbury, died on Friday morning.

The deceased was born in Norway and had lived in Veteran for some years.

The funeral was held at the United Church, Veteran on Sunday, the only children able to be present being Mrs. F. Slough, of Veteran, and Mrs. T. E. Chatham, of Edmonton.

Dr. and Mrs. Chatham, and two children came by airplane from Edmonton on Sunday morning, making the trip in about two hours.

Mr. E. G. Ranton made a business trip to Calgary on Wednesday.

Mr. Howard Evans returned home from Claresholm this week, on account of illness.

## LOCAL & GENERAL

J. Scrutton is announcing six small photographs for 25 cents.

Celebration of Holy Communion at St. Cyril's Church on Sunday, 11 a.m.

We are sorry to learn that Mr. W. G. Liesemer is confined to his home.

Saturday night dance at the Opera House this Saturday. Virginians orchestra.

We are pleased to report that Mr. Bert Fisher is improving nicely, and was able to return to his home on Wednesday.

The sermon at Zion Evangelical Church on Sunday morning will be "Christ's Measure of a Man," and in the evening, "Clean Hands."

Watch out for the race ball on March 30th. It will be the big dance of the season—a leap year dance!

Messrs R. B. Campbell, R. A. Craig, and E. Smith, of Oids, attended the Fulkert funeral on Monday.

"I Like Your Nerve," starring Douglas Fairbanks, Junior, is the picture for next Monday & Tuesday at the Opera House. Also 5th episode of "Phantom of the West."

Auction sale in Didsbury. List your supplies—horses, cattle, hogs and farm machinery for the auction sale which I will hold on Sat., Mar. 5th—J. W. Phillipson.

The program at the Opera House has been changed for tonight, (Thursday) when Chas. Chaplin in "City Lights" will be shown. This super feature production will be given at regular prices.

Miss Edith Mitchell, of Calgary, and Mr. Alex Mitchell, of Edmonton visited their parents, Rev. and Mrs. Mitchell, over the weekend. Mr. Mitchell is leaving to take up a position at Ponca Coupe, in the Peace River Block.

The members of the I.O.D.E. entertained their friends in the Oddfellows Hall on Monday night. The first part of the evening was spent with bridge, and the prize winners were: Ladies 1st, Miss Dorothy Huger; 2nd, Mrs. McElhee. Gents 1st, Mr. W. Shoebottom; 2nd, Mr. J. Bevan. After supper, dancing was enjoyed, the music being supplied by Miss Evelyn Liesemer and Messrs. Art Reiser, Melvin Huger and Ward Wyman.

On Friday evening last the Trail Rangers, under the leadership of Ormond Phillips, held a toboggan party on the hills east of town. Each Ranger, including the leader, invited a lady friend, but there was a noticeable absence of the latter, however, the boys had quite an enjoyable time and wound up the evening with lunch at the home of Mr. and Mrs. J. W. Phillips, after which the boys held a sing-song and played a few games. A hearty vote of thanks was accorded Mrs. Phillips for the splendid lunch provided. The Rangers then left for their various homes, expressing this one of their most enjoyable outings. If suitable weather conditions prevail, the boys hope to hold another toboggan party in the near future.

## Knox Church Anniversary.

The anniversary services of the Knox United Church were held on Sunday evening when there was a large attendance. Rev. A. J. Mitchell conducted the service, and Rev. T. T. Faichney, of Calgary was the guest speaker. The choir rendered special music.

On Monday evening the Ladies Aid gave a turkey supper, and about 200 people partook of the excellent fare provided.

After supper a program was given in the church, Rev. Mitchell occupying the chair. Rev. E. K. Trowbridge extended greetings on behalf of the Anglican Church.

The Rev. T. T. Faichney delivered a lecture, taking as his subject, "Civic Pride." He urged his listeners to take pride in the town in which they lived, and pointed out how a few beauty spots where trees and flowers could be grown, would improve the appearance and living conditions of any prairie town.

Mr. H. W. Chambers outlined the history of the United Church in Didsbury and stated that during the past year the church had increased its membership as well as in attendance.

The musical part of the program consisted of community singing, led by Mr. J. Boorman, and piano and vocal selections. Those who took part were: Miss Dorothy Landon and Mrs. Boorman, piano; Mrs. Sangstad, Mrs. D. Edwards, and Mr. H. O. Tomlin, vocal. Mrs. Huger gave a recitation which was much enjoyed.

## Coming Events

Melvin Go Getters are holding a dance at the Melvin school on Friday, February 19th. Good music. Gents 50 cents.

Don't forget the local Oddfellows annual St. Patrick's dance in the Opera House, March 17th. Keep the date in mind.

The music and the price will be right on the 30th of March.

## Obituary.

FULKERTH.

The funeral of Mr. L. B. Fulkert, who died on Sunday morning at his home, east of Didsbury, after a short illness, was held at the Evangelical Church on Monday afternoon. The church was crowded to capacity with friends and neighbors who attended to pay their last tribute to a man who had lived amongst them for the past twenty-five years.

The church service was conducted by Rev. H. J. Wood and the last rites at the graveside were performed by the Didsbury Masonic Lodge.

Leobens Biglow Fulkert, was born April 11th, 1858, at Mount Pleasant, Pennsylvania. In 1881 he was married to Elizabeth Decker, at Red Oak, Iowa. For a number of years they lived in Missouri and came to Didsbury with their family in 1907.

He settled on land a few miles east of town, which he, together with his sons, developed into one of the finest farms in the district. He was of a pleasant disposition and he will be greatly missed by a large circle of friends.

He leaves to mourn his loss, his widow, seven sons, Joseph and Russell, five grandsons and two great-grandsons.

He was a member of the Didsbury Masonic and Eastern Star Lodges.

DUNCAN.

After several years of ill health, Hector Duncan passed away at the Didsbury Hospital on Wednesday, February 10th. The funeral was held at the Memorial Church, on Wednesday afternoon, the Rev. Spence officiating.

Mr. Duncan was born at Petrolia, Ontario, February 10th, 1892 and came here with his parents about three years ago and has lived in the district east of town since then. He leaves to mourn his loss, his mother, Mrs. Mary Duncan, four brothers and four sisters.

## Disarmament.—Or War?

In the month of February, 1932, there will be convened a great conference of all nations to deliberate upon the problem of how to bring about world disarmament. It will be one of the most representative conferences ever held, while its decisions will be of the most momentous character, fraught with tremendous good or ill for all peoples.

A cynic may be inclined to inquire as to the necessity for a disarmament conference in view of the fact that in 1914-1918 a great war was fought with the declared object of ending all further war. The nations which avowed this to be their object won that war. Having won, why the continued necessity for huge armaments, why the necessity for a solemn convocation of the nations to endeavour to bring about disarmament?

The truth is: War will never be ended by war. The Great War 1914-1918 was not the first one to be fought to prevent future war. We read in the works of Mr. James Branch Cabell, an erudite student of the history and customs of the South of France, of how the Duc de Puyssange in the year 1697 addressed his ten-year-old son in these words:

"Now that we have almost reached the eighteenth century, and all the nations have signed that treaty in which they promise there ever being any more wars, and people are sitting about peacefully in sedan chairs, and are living in America," etc., etc.

Yet how many wars have been fought since 1697 although even then there was a treaty signed by "all" nations to prevent war?

Following the Great War 1914-1918, the nations set up a League of Nations having as its main purpose the prevention of war. Notwithstanding that two of the greatest nations in the world refused to become members of the League, it has accomplished much, but not enough. Then followed the treaty of Locarno, the Washington conference which achieved a measure of limitation of naval armaments, and finally the Kellogg Peace Pact, signed by practically every nation, declaring war an outlaw and solemnly pledging themselves, each to the others, never to resort to war as an instrument of national policy against any other nation.

And yet, the nations continue to be armed camps. The so-called peace time armies of today outnumber those maintained prior to 1914. War instruments and machines of destruction not only possess the land and sail the seas, but they dive under the seas and fly over the land. In a machine-age, armies, navies and air armadas have become highly mechanized, holding in lethal powers of destruction and horrors of suffering previously unsurpassed in man's imagination.

At a time when millions of men are out of productive employment, when war and suffering stalks through hundreds of thousands of homes, when practically every nation is plunging deeper and deeper into debt, billions of dollars are being spent annually to increase and strengthen these huge war machines. Nor is it the semi-civilized, the least intelligent, the non-Christian nations which are the leaders in these insane and criminal acts, thus forcing civilized and Christian people to prepare to defend themselves. No, it is the nations which boast of their higher civilization and call themselves Christians who are setting the pace in preparing for another war.

Soviet Russia, which claims it is setting an example to the whole world in the development of a new order, a better way in which mankind should live, is one of the worst offenders, with its government compelling the people to learn all the arts of war hand in hand with the arts of peace. The United States, far removed and immune from the century old suspicions, jealousies and hatreds of Europe, and safe from attack, leads the van in demanding a huge navy and in the maintenance of a large standing army. France remains armed to the teeth, with Italy a close second. Great Britain has gone farther than any other nation in reducing armaments and is prepared to go much farther, prepared to go the limit in fact, if other countries will do likewise.

The hope of the world lies in the success of the forthcoming disarmament conference. War will not end war; rather each war but precipitates another. Disarmament alone will prevent war; it is the sole preventive measure, and in this case prevention alone will provide the cure. Give a rifle and he will not be happy or content until he uses it. Give a nation a huge army, a powerful navy, ships and submarines, and as sure as night follows the day, it will, sooner or later, make use of them.

The hopes, the prayers, every ounce of influence possessed by each and every individual should be directed to making the forthcoming conference a success, wholly and completely so. Then, indeed, will a new day dawn for all nations and peoples.

## To Increase Tariffs

Premier Henck, of Belgium, announced that he intended to make use of the powers conferred by the government to increase tariffs and regulate imports. Announcement was interpreted in political circles as foreshadowing imminent defensive measures against professional regulations of other countries as a temporary policy.

## Do Fish Ever Sleep?

A scientific article in the *Washington Post* says that a fish never sleeps, but that it has a period of rest when it lies on its side, with all the fins, river, lake, and ocean beds. (Econ. Fifth Messenger.)

## Too Many Middlemen

If the United States folk are disrespected to the Canadian dollar, why should this country's business men import raw materials from abroad through agencies in that country? There are too many middlemen getting their "kick" before the ultimate consumer receives his goods. In planning to stop this business the number of trade and commerce is on the right track. —Toronto Globe.

## Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes: "I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition. I had been using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Price 50c a box

## Short Paid Letters

### Christmas Greetings From United States Lacked Necessary Stamps

So many United States citizens forgot to add an extra one-cent stamp to the envelopes bearing their Christmas cards this season that no less than 725,000 letters from across the border arrived short paid in Toronto during the holiday rush.

To avoid a recurrence of the difficulty, Toronto authorities stated recently, Ottawa is making a request to Washington postal administration to make better known the fact that it takes three cents to carry a letter from the United States to Canada.

## 3 MONTHS OFF WITH NEURITIS

"I suffered awful pain for two years with Neuritis and Sciatica, and was off work for three months' time. After trying everything I could think of, I finally got relief. I bought at all, I tried a bottle of Kneiss Salts. After my second bottle, I started working again, and I am very glad to tell you I am still working, and I am quite free from any pain whatever."—S. H.

The pains of Neuritis and Sciatica are a symptom of deeper trouble—the same trouble that causes rheumatism, gout and lameness. They are a sign of an impure blood-stream. They show that poisons have crept into the blood. Kneiss is a combination of six natural salts, which ensure internal cleanliness of the blood-stream. Cure, purify, new and refreshed blood is sent coursing to every fibre of your being. Neuritis, Sciatica and kindred ailments pass you by. Depression and lassitude vanish like mist before the sun.

### Recalls Men Back To Work

The Oshawa plant of the General Motors of Canada, Ltd., has recalled 1,000 of its employees to work during the month of December. Improved business conditions have helped in restoring the pay roll to a nearly normal condition.

Persian Balm is a true elixir of youth, Refreshes and rejuvenates. Adds a youthful charm to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Indispensable to the woman who appreciates subtle distinction. Delightful to use. Delicately fragrant. Soothes dry and irritated skin. Corrects and preserves. A flawless toilet requisite for every discerning woman. A true aid to beauty.

### How Many?

"Now, boys," said the school teacher, "is there any question you would like to ask me about long measure before I pass on to the next class?"

"Yes, sir," said Jimmy Jones, "How many policemen's feet does it take to make a Scotland Yard?"

Asthma Doesn't Wear Off Alone. Do not mistake the milder stages of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early will prevent incipient condition from becoming chronic and saves hours of awful suffering.

Before the advent of the white man, Eskimo knives were made from native copper.

Miler's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that no mind is bereaved to the growth of the child. They have attacked their power in hundreds of cases and at all times are thoroughly trustworthy.

An evening school started a course in plumbing and after the first lesson the class began to attend.

Don't let Egyptian Liniment always quicken always certain. Stops itching instantly. Counteracts stings and pricks. Blood poisoning. Splendid for muscular rheumatism.

Why is it that a big heart and a big pocket book seldom travel far together?

No child should be allowed to suffer on heart from worms when prompt relief can be got in a simple but strong remedy. Mother Graves' Worm Expeller.

House spiders lay as many as 60 eggs at a time, carefully enclosing them in a bag of silk.

### Epidemic Peculiarities

#### On Some Days Man's Skin Is Death To Bacteria

Man's skin on some days is death to bacteria, but on others is something they love to touch.

This strange, varying power of the skin to kill bacteria was explained to the Society of American Bacteriologists at Baltimore. The experiments were performed by Justina H. Hill and Edwin C. White, of the James Buchanan Brady urological institute of Johns Hopkins University.

### Dominion Checker Tournament

#### To Be Held In Regina Commencing February 8th

The Canadian Checker Association is holding the Annual Dominion Checker Tournament at Regina, Sask., for the week commencing February 8th, 1932. A cordial invitation to attend is extended to anyone interested. The committee hopes to make this a real tournament. Further particulars may be obtained from J. E. Watson, 974 Athol St., Regina.

The Oil For the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

### Grain Raising On Indian Reserves

Indians in the three Prairie Provinces of Canada had under cultivation in 1930 about 112,000 acres. The records of the Department of Indian Affairs also show that in the spring of that year these same wards of the Government sowed 38,156 acres to wheat, 24,759 acres to oats, 5,432 acres to barley, 2,918 acres to rye, and had several hundred acres of gardens. Their summer-fallowed approximately 32,273 acres.

A trust may be able to limit the output of whiskey, but it can't limit the input.

LADIES WANTED TO DO LIGHT sewing at home, good pay. Work sent, charges paid. Stamp for particulars. National Manufacturing Co., Montreal.

### Educating Canada's Indians

A total of 350 centres of Indian educational activity in Canada, composed of 78 residential schools and 272 day schools, is reported for 1930 by the Department of Indian Affairs. The total enrolment was 16,743 and the average attendance, 11,579.

## The Darling!

What a care he is, but how precious! Your whole life is centred in him... He has to be well and happy, he must be strong and robust.

Baby's Own Tablets help mothers to keep their children well. They are the ideal laxative for children—a simple and safe preventive, and a remedy for colds, single fever, indigestion and constipation. They aid in relieving the distress which accompanies the cutting of teeth and generally promote the health and comfort of children.

### BABY'S OWN TABLETS (Dr. Williams') 175

### Queer Fish

An exploring expedition came across some queer fish in Siam which can climb steep canal banks by means of their tails and fins. They can travel on land as fast as a man walking slowly.

### Try Lydia E. Pinkham's Vegetable Compound

### She's Up in the Air Again

Those she loves... are first to suffer when mostly pains shatter her nerves. Lydia E. Pinkham's Vegetable Compound would ease her and agony.

# Scientists Have Hopes Of The Ultimate Development Of Radio Power Transmission

Scientists have high hopes for the ultimate development of radio power transmission. Even governments anticipate it. As fantastic as it may seem, other dreams of advancement in science have materialized after experts had disavowed their possibilities.

Lawrence M. Cockaday, New York University professor and noted radio engineer, told the Canadian Press "the best systems of extremely short waves may yet open up the field of possibility and make feasible the transmission of larger powers along the airwave paths."

"In this eventuality," Mr. Cockaday continued, "power transmission could be used for great air carriers in flight. As well as ocean liners, land ships and moving vehicles. Even in this day it is possible to control these moving carriers by means of radio energy."

The latest development is the discovery of microwaves, so small that they are measured in centimetres. Microwaves permit a high degree of efficiency at receiving stations.

Further, concentration of the radio "beam" in one direction, also a late development, means a higher efficiency of power at the receiving end. Mr. Cockaday has been conducting investigations into the concentration of beams.

The future can easily be imagined. The fruitful source of energy would be huge power plants at natural water-power developments. These developments would transmit power to various cities and community centres to be redistributed within their domains.

Each community would have a retransmitting station to distribute the energy categorically domestic appliances, moving vehicles, etc.

The "beams" would be transmitted at various levels for different uses — one perhaps above house tops, for domestic use, and another at a level where automobiles might pick up the power. To save loss of power, a receiving station at the far end of the city would pick up unused power, storing it for redistribution.

Applied to vessels at sea, the problem of diminishing fuel would no more trouble the captain. The course of the vessel might even be simplified, the power beam acting both as engine and course director. In the event of storms at sea, storage batteries would reserve enough energy to operate the vessel until it found the "beams" again.

Railroads would be revolutionized, and airplanes might utilize the two-fold advantage of the power "beam" as a one-direction and energizer.

## The Great Debt Illusion

If Germany defaults on her debts Great Britain is bound to follow. There is no use continuing the illusion of international debt and reparation payments. If we don't end it we may have social upheavals in which more than reparations and international debts may go by the board.

Spreading of increased taxes, is it sporting to jump on an income when it's down? — *New British Herald.*

Irish harps are becoming so rare in Ireland that some were sold recently for \$500 each.

## Infantile Paralysis

New Cure Has Yet To Be Found By American Physicians

The medical profession, in United States at least, is still at a loss for facts concerning the cause or cure of infantile paralysis. It was agreed by physicians and scientists attending the twelfth annual meeting here of the Association for Research in Nervous and Mental Disease.

Even the convalescent seminar, so generally advocated and administered during last summer's epidemic, is not yet proved effective, the most that can be said for it is that it does no harm, and most physicians believe in administering it on the theory that it is better to give the patient the benefit of the doubt as to its value, according to several experts.

By Annette

THE WOOLLEN FROCK IS ACCOMMODATING FOR ALL-DAY TIME WEAR

Stunning and helpful slimming lines, paneled skirt, raglan cut sleeves that are embodied in this model.

You have only to note its slender narrowness, the shoulder, and wrap-over bodice.

It's the most comfortable dress to wear next your winter coat. — It's so easily slipped into.

And can you imagine how fascinating it is in the fashionable almond green shade in a sheer woolen? Its only adornment are nickel buttons and belt buckle.

A few yards of material, and a few hours with the sewing machine, and you'll love it!

Style No. 865 is designed for sizes 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32 inches bust.

Drone-like woollens and dull ragged muted cotton-tulle crepe are equally nice costumes.

Size is required 3 1/2 yards 39-inch. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap over carefully.

## Decline In Educational Standard

President of Dalhousie University Believes To School Problems

"There has been a decline in Canadian educational standards during the past few years," declared Carleton W. Stanley, president of Dalhousie University, in a year-end interview on education in general. "And this must be eliminated if Canada is to maintain that glorious democracy that has featured her educational system in the past."

Dalhousie's new president landed the widespread systems of scholarships in British universities, stressed the need of greater development along similar lines in Canadian universities, and reminded that present-day students exhibited a multiplying interest in their work.

"The decline in educational standards," continued President Stanley, "is due to the weak attendance at practically every university and high school in Canada, a problem that is becoming more acute every year. Understated for even such smaller attendances, this appalling increase means that institutions of learning are physically unable to do the work they were intended to do."

He said that, while educational authorities were quite frank about this matter among themselves, there seemed to be some unwillingness to discuss it openly, something that must be done very soon.

"The one direction in which we have grown away from democracy," he continued, "is that the cost of education has increased enormously. This is largely because of the increased attendance, and the consequent need for more buildings and for larger staffs, not through the increase of teachers' salaries as many suppose. These have not nearly kept pace with the cost of living."

## International Wheat Movement

Movement Of Wheat And Flour Has Been Satisfactory

Considering the period from Aug. 1 to Dec. 15, the international movement of wheat and flour has been satisfactory, says a statement issued by the Dominion Bureau of Statistics. World shipments for the first 20 weeks of the present cereal year have amounted to 209,000,000 bushels, compared with 211,000,000 bushels for the corresponding period last year.

Considering existing tariffs against imported wheat, milling quotas and other restrictive measures in effect in continental European countries, as well as the availability of supplies of domestic wheat in importing countries, the international movement of wheat during the past four and one-half months has been an encouraging factor in the wheat situation. In spite of the many difficulties resulting from the present economic situation, surplus stocks of wheat are moving into consumption at a rapid rate.

## Reduction In Milk Price

Through agreement with the New England Milk Producers' Association the milk distributors of Boston have recently lowered their retail price to ten cents per quart, following reduction of a cent in the wholesale price for the second time in a week. This is the lowest price Boston has had to pay for its milk in the past 15 years.

# Monster Project To Impound Waters Of North Country To Alleviate Drouth Conditions

Flushing streams of Canada's broad northland may be put to work in the west country's efforts to halt the ravages of drouth — most fearful destroyer of Canadian grain crops. Gigantic plans advanced for the consideration of two prairie governments involve formation of a barren-lands lake double the size of the Great Lakes, and development of the west's greatest power project within 150 miles of Winnipeg.

Moisture would be added to the prairie prevailing northwest wind by the proposed flooding of a monster basin in the Northwest Territories, in Manitoba's 400,000 horsepower project, advanced by Premier John Bracken, the province's lakes would be made the storeroom for moisture for the fertile prairie plains in the south.

"Three of the great rivers pouring into the Arctic Ocean and Hudson Bay would be harnessed if the two projects were put into force. The Mackenzie River, the St. Lawrence of the north, and the Copernicus would be dammed to form the new lake in the barrenness and the flow of the wandering Saskatchewan would be diverted if the Manitoba plan were brought into effect.

"The better information we obtain, the better the Manitoba project looks," stated C. H. Atwood, Deputy Minister of Mines and Natural Resources, commenting on the plan advanced by Premier Bracken. At the last session of the legislature, \$12,000 was set aside for investigation of the plan for storing the flood waters of the Saskatchewan and Manitoba's northern lakes.

At the present time, the Saskatchewan flows into the north end of Lake Winnipeg at Grand Rapids, about 75 miles southeast of The Pas. Under the Bracken plan, the river would be diverted south through lakes Winnipegosis and Manitoba, which purifies Lake Winnipeg on the west, and a powerful head of water would be obtained on the Dauphin River, flowing from Lake Manitoba to Lake Winnipeg.

"It has been pointed out that the water-table in the Portage Plains would be higher if the lake levels were higher," Mr. Atwood explained. "Roughs drying out in the south draw on the water-table, it is held and as a result the sun total of available growing moisture is diminished. Besides, higher levels are sought by fishermen, duck hunters and muskrat trappers."

Though no estimate has been made of the possible cost of the Bracken project, since full information is not available as yet, it is contended that the work would not involve a large outlay. A dam would be constructed at Grand Rapids and possibly a canal to shorten the course of the Dauphin River where the power plant would be located, but few other works are at present considered necessary.

Shipment of western coal by barge down the Saskatchewan River, which flows from the Rockies foothills, is

one of the possibilities envisaged in the Bracken plan. Once on the Manitoba lakes, the barge could be routed by means of canals and locks to the Red River and thence directly to Winnipeg. Enquiries regarding the project have been received at Winnipeg from governments of the other prairie provinces, from engineering firms and from municipal governments.

Rough details of the proposal to flood a great area in the northwest by damming the relatively narrow valleys of the north flowing Mackenzie and Copernicus Rivers have been outlined by G. T. Macgwood, Herbert, Sask. They are in the hands of Hon. J. P. Bryson, Saskatchewan Minister of Public Works, in his capacity as chairman of a provincial commission on conservation and afforestation.

"Such a lake would flood country still unsettled, and that would involve no expense," reads Mr. Macgwood's letter to the commission. "Water power would be a by-product of the project. It would be a vast stretch of Canadian shield mineral deposits would also be a reward. Such an inland lake would solve our drouth problem, for it would take moisture from the Pacific, at present mirrored out of the winds by the ridges of the Rockies, and scatter it over the prairies."

## Bacon Trade Poor

Big Drop In World Prices Is Given As Cause

The action of the Irish Free State Government in placing a protective tariff on bacon from which the various portions of the British Empire are exempt is taken at Ottawa as an encouraging gesture towards Empire trade. However, government experts see little probability of ever building up a trade in Ireland for Canadian bacon. Ireland is itself one of the world's most noted producers of bacon which tops the market in the United Kingdom.

The bacon trade is in a bad way at present. The prices are very low. Bacon is offered retail in Canada as low as 10 cents a pound when not so long ago it was 10 and 50 cents. The big drop in this country came when Canada started exporting. For several months this year the supply was no greater than needed to meet domestic supply and prices held up. Eventually there was a surplus and when the export business started, domestic prices tumbled to an equality with world prices.

## Control Of Trachema

Regulations Expected To Be Imagnated In Saskatchewan

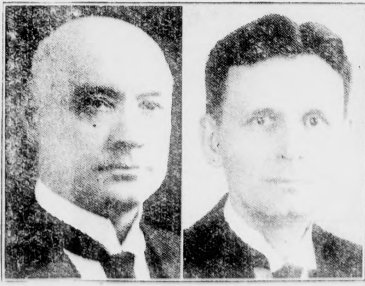

Special regulations covering the control and prevention of trachema in Saskatchewan are expected to be magnated in the near future, following approval of such action at a meeting of the provincial council on public health, held recently in the office of Dr. P. C. Middleton, Deputy Minister of Public Health at Regina.

Such regulations will be only part of wide changes to be made in regulations for the control and prevention of communicable diseases in the province. Present regulations, Dr. Middleton states, have not been revised since 1923.

Mason: "I heard on the wireless last night that it was certain to rain today, so I suppose that we leave off work before we get wet." (Action carried unholmily.) — *Sonlagensatras, Stockholm.*

## NEW RAILWAY APPOINTMENTS

John MacMillan (left) retires as General Manager of the Canadian Pacific Railway Telegraphs Department on January 1st, after having been in the service since 1883, and General Manager since 1921. It is announced that W. D. Neil (right) is appointed General Manager of the Department of Communications of the Canadian Pacific Railway, with supervision over the system's telegraph, telephone and radio broadcasting services. Mr. Neil joined the company as an operator in 1905.

## Says Grain is the Chief Industry.

James Murray Asserts Summer Following of Greatest Importance.

In spite of attention being given to livestock production in Alberta, grain growing is going to continue to be the paramount industry in the province, said James Murray, principal of the Olds School of Agriculture, in an address on "Grain Production and Tillage Methods in Southern Alberta," at the agriculture short course in the Calgary board of trade rooms, Friday morning.

Mr. Murray touched on a few of the methods of soil cultivation which would ensure the continuing of grain production to the best advantage, and pointed out the wise selection of variety is of primary importance.

In wheat, for example, he said where Marquis will not mature it is important to select another variety of high quality such as Red Bob or Reward. Garnet being in some disfavor on account of inferior quality.

Oats varieties divide themselves into two general classes, Mr. Murray said, these consisting of the early kinds and the main crop. He pointed out that Victory and Banner are two of the best standard sorts, but when in any season earliness is required, Alaska, White Cross or Gopher should be used.

In barley, the speaker suggested that Tebel is the heaviest yielding variety and the hull-less varieties, Himalayan is one of the best. Of the smooth awned sort, Mr. Murray recommended Glabron.

Referring to the actual growing of the crops, one of the main problems, he said, was to make the best use of moisture, and pointed out that with an average rainfall of less than 17 inches at Calgary, there was little to spare, the lack of moisture being the main limiting factor in crop production.

He asserted that poor crops were due to insufficient plant food not being in an available form, and suggested that as all plants drink their food it was important that the plants had sufficient moisture to bring the food into solution.

In this respect, Mr. Murray asserted, Alberta must still depend, at least in the southern part of the province, on summer fallow as a means of storing moisture. At that, even with the best of cultivation, the summer can store little more than one-quarter of the rainfall. The rest is lost in evaporation and growth of weeds. With reference to the latter, he said, weeds were the greatest moisture robbers.

After touching on the value and times for plowing, Mr. Murray said that as time went on more attention would have to be paid to the returning of vegetable matter in the soil in the form of manure, grass and clover crops, and further urged greater development of suitable rotation. In this way the growth of weeds was curtailed, he explained and the land was kept in a high state of productivity.

## Play-Off Hockey.

The Olds-Innisfail team outplayed the Didsbury-Carstairs aggregation to the tune of 4-1 at the Olds arena on Saturday night in the Class "B" series of the provincial play-off.

Olds showed their superiority early in the game, and in the first period landed two goals into the net.

In the second period Didsbury tightened up and held Olds scoreless, while Soucek beat Maybank on a pretty pass from Cook.

Just before time was called, Olds registered two more counters.

Neither team played as good a brand of hockey as they are capable of, and we believe that Didsbury, with their own line-up could make a better showing than the combination team.

## Low Railway Fares Continue After Feb. 29

In response to public demand, low week-end round-trip fares, which have been offered by the C.P.R., C.N.R. and other railway lines in the dominion since last summer, will remain in force after February 29th, the date originally set for their discontinuance.

In making this announcement, the Canadian Passenger Association draws attention to the privileges now in force, and of which extension is now to be made. Round-trip tickets between any Canadian stations for any week-end are offered by the railways at the rate of one-and-a-quarter times the regular single fare. These tickets are good going from Friday noon until Sunday noon, and returning until Monday night.

The travelling public will thus be able to continue its week-end journeys, which have been so popular during the past year, and it is anticipated that the volume of traffic will be even greater as the spring develops. The popularity of the concession is already assured by the thousands who have availed themselves of it, and its extension will, without doubt, be very welcome.

## "MAY I USE THE 'PHONE?" Empress of Britain as Floating Pay Station.

Madeira got a new thrill recently when telephone communication was established between that pleasant island and London, England for the first time.

The occasion was the arrival of the Canadian Pacific liner Empress of Britain at Funchal on a cruise around the world. This magnificent new liner has the most powerful ship-to-shore telephone system in the world and Madeirans were not slow to recognize a chance to make island history.

During her stay there, lying at anchor just beyond the famous Loo Rock, the Empress was host to many visitors. Amongst these were two who casually asked, "May I use the 'phone?"

Just as casually the telephone operator of the ship called up London and put the callers through over 1,221 miles of water.

Reports from the Empress of Britain, now at Colombo, Ceylon, indicate that the wireless telephone is a popular feature of the ship. The longest distance yet reported is Haifa, Palestine, to Montreal. The liner works on a daily schedule with Canada, through the Canadian Marconi stations at Vancouver and Drummondville, Quebec, and the Bell long distance board in Montreal.

Photos show Empress of Britain at Madeira with Loo Rock in the foreground, and a typical bedroom fitted with telephone.

With the Canadian dollar where  
it is, the market, there is a  
marked tendency to keep it at  
home and many Canadians are  
planning to spend the winter and the beauties of  
British Columbia instead of "going  
south". Fifteen per cent can mean  
a whole lot of dollars and the  
British Columbia coastline is one  
of nature's most beautiful spots,  
anyway.

There are 32,299 schools or  
colleges in Canada, taught by  
83,114 teachers and attended by  
2,400,000 pupils, or one quarter of  
the Dominion's population. The  
average expenditure is about \$66  
each pupil annually. Attendance  
is on the up grade, being 77 per  
cent for the whole Dominion, as  
against 61.7 in 1919. And the  
future of technical education is  
promising, for the Technical Edu-  
cation Act provides for Federal  
aid of \$25,000 per year for 15  
years, and is due to run, to say  
nothing of the day courses in  
technical institutions. 308

## Baby Beef Fed On Many Farms

W. D. Albright, of Beaver Lodge  
Station Gives his Experience.

Most feeders of baby beef wean  
their calves in the autumn, but where  
a warm enough shed is available, so  
that teats will not freeze, the writer  
has found it profitable to employ the  
plan for nine or ten months instead  
of six. Through the medium of the  
udder she can convert much coarse  
feed into calf flesh, and with but  
"little grain, the youngsters carry  
along rapidly to a high finish. Milk  
adds a spicy flavor to baby beef.

Fairly good results may be had  
from pained cows when the skim-  
milk is suitably supplemented, as  
with flax seed, and an easy way of  
milking is to put two young calves  
on one hand-milking old cow, such  
is most herds afford. The skimmed  
milk of the second calf's dam will be  
good for the pigs. This plan can  
even be followed with dairy-bred  
steers, which, if beefed at all, should  
be turned off before the dairy type  
develops. In May 1929, a nine  
months pained Holstein calf realized  
\$50.00 on the local market.  
Baby beef production is perhaps  
of a good system for a poor feeder.  
The calves should be kept coming  
without a reverse. Retain the calf  
at.

## Gravel Highways In Alberta, 1,575 Miles

Alberta has 1,575 miles of gravelled  
roads, according to information given  
the House by Hon. O. L. McPherson,  
minister of public works.

In addition, says the minister,  
the province has 60 miles of bitumin-  
ized gravel roads, and 75 miles of  
standard grade ready for gravel  
surfacing. There are 71 miles of  
standard grade under construction,  
while 330 miles have been built in  
conjunction with municipalities.

## Twine Loans Reach Total of \$269,278

The total value of binder twine  
advanced by the banks last fall,  
under a government guarantee, was  
\$269,278, it was disclosed in an  
information given the House.

At January 31st last, the sum of  
\$201,672 had been repaid, leaving  
some \$67,605 outstanding.

There were 5,353 individual farmers  
who obtained twine under the  
government guarantee, while 4,025  
have paid their indebtedness in full.

## "I Like Your Nerve," Gay, Amusing Drama

"I Like Your Nerve," the first  
National picture which comes to  
the Opera House Monday and  
Thursday next, is not only noticeable  
from the fact that it is the second  
starring vehicle for Douglas Fair-  
banks, Jr., but for the reason that  
it offers him a role quite different  
from any he has previously portrayed.  
The part is a dashing combination  
of Robin Hood and D'Artagnan, the  
sort of character that won fame  
for Fairbanks, Sr.

Young Douglas is seen first as a  
hesitant young sap under the  
domination of a stern mamma, who  
encourages him in an inferiority  
complex. He goes in desperation  
to a crystal-gazer who assures him  
that his real self is valiant, and that  
his prowess over the ladies needs only  
to be demonstrated.

Thrilled with the idea, he speeds  
to central America, and once there  
proceeds with the aid of a high-  
powered car, to scale walls, capsize  
guards, crash gales, confront august  
dignitaries in their secret haunts—  
all for the love of a young lady whom  
he has passed and determined to  
possess.

He finally succeeds in kidnapping  
her from kidnappers, rouses the  
citizens to route a villainous rouse  
who means to win her by much  
money, saves the day for the re-  
public, and rides away with the  
young lady—all with a debonair  
bravado which is altogether deligh-  
tful.

"I Like Your Nerve" was written  
by the famous English novelist and  
playwright, Roland Penrose. It is  
the gayest and most amusing of  
romantic dramas, and is guaranteed  
to give a grand and glorious evening  
to everybody in the family.

## NOTICE FOR NOMINATIONS FOR ELECTIONS

Municipal District of Mountain View,  
No. 310.  
Municipal Elections, 1932.

## HOCKEY

CROSSFIELD vs. DIDSBURY.

The Didsbury boys went on a scoring spree in the game against Crossfield on Tuesday night, and pounded in 9 goals to their opponents 2.

The scorers for the local boys were: Hugst 3, Woodlock 3, Johnson 2, and Geiger 1.

The return game with Crossfield will be played at the Didsbury rink tomorrow evening (Friday).

Showing of new spring millinery, also georgette dresses—Mrs. Wilson, next door to Pioneer Office.

### Mountain View Notes

Mr. Doll gave his report on the trustees' convention recently held in Calgary, but owing to the severe weather the hearings were few.

An old resident, Mr. L. B. Fulkert, passed away on Saturday morning. The district extend their deepest sympathy to his widow and family.

The monthly meeting of the W. I. will be held on Thursday at 2 p. m., when a paper on "Education and Better Schools" will be given by Mrs. B. A. Atkinson.

Miss Doris Brown spent the weekend at her home in Calgary, and on Friday evening attended the silver wedding anniversary of Dr. and Mrs. Tuft.

A whist drive will be held at Community Hall on Friday night. The dance proved inefficient as far as funds were concerned, so all the members of the W. I. extend a cordial invitation to everybody to make the whist drive a success.

### RUGBY NOTES

A fine night, although a little chilly, a very full house, and a good program, all contributed to the success, both financially and otherwise, of the entertainment given by the Rugby W. I. on February 12th. The holder of the lucky number on the confetti was Mr. R. Webster. Mr. Clay Robbins made a most efficient auctioneer. After supper the floor was cleared for dancing which was kept up to a very late, or should we say, a very early hour, for most certainly the first streak of dawn was not far away when the lights went out and quietness reigned once more. The "Frog Holler" orchestra supplied the music. The sincere thanks of the W. I. are tendered to all those who so willingly gave their assistance for the occasion.

### Burnside Notes.

Mr. and Mrs. Ronald Dundas are receiving congratulations on the birth of a son on Monday, Feb. 15th.

The Misses Winnie Spraggs and Helen Pross spent Sunday with Mr. and Mrs. George Metzger.

The people of Burnside district extend their sympathy to Mrs. Duncan and family in the loss of a son and brother.

Mr. and Mrs. Billy Dick and family are moving this week on to the W. Reddickoff place, near Sunnyslope.

Mrs. Joe Clark, Mrs. Bittner, Gus Bittner, and Walter McCulloch were Calgary visitors for a couple of days this week.

Mr. and Mrs. Bert Pross, Lester, and Marion, Esther and Sam McAllister were Sunday visitors at the home of Mr. and Mrs. Noah Eckel.

There was a splendid attendance of ladies at the W. I. meeting at Mrs. Charles Marden's on Thursday afternoon last. Plans were made to hold a concert and country store dance on March 18th at Lone Pine Hall. Mrs. C. R. Liesemer gave a splendid paper on "Temperance." The next meeting will be held on Thursday, March 10th at the home of Mrs. Jenkins, when Miss Helen Pross will have charge of the topic, "Canadian Industries."

### Melvin Notes

Don't forget the Go-Getters dance in Melvin school, February 19th.

Mr. Wyman O'Brien drove to Trechu this week.

Miss Mildred Brown, of Airdrie, spent the week-end with friends in the district.

Mr. and Mrs. A. Krebs spent Sunday with Mr. and Mrs. A. Esler, of Didsbury.

Miss Marion and Mr. Ranold Johnston, and Miss Mildred Brown visited Mr. and Mrs. Ray Lantz on Sunday.

The Westerdale Club played the Go-Getters at Melvin on Saturday night. There was a large crowd present, and good games were played, the score being in favor of the Go-Getters.

There was a splendid crowd at the whist drive in the school Tuesday night, in spite of bad roads. Ladies 1st prize went to Mrs. Culling. Gent's 1st to Mr. Summers. Ladies consolation went to Mrs. Frances Durrer, and the Gent's to Mr. V. Korschuh.

Canada has a bumper crop of potatoes this year with an official preliminary estimate putting the total 1931 yield at 92,558,339 bushels from 576,200 acres as compared with 80,461,560 bushels from 571,300 acres in 1930.

Canada is the pioneer in fish culture on this continent. The first fry hatched from artificially fertilized eggs in Canada were produced in 1858 and fish culture was established as a Dominion Government service in 1867.

Britishers are eating Canadian eggs this year with their breakfast bacon. Estimates for 1931 place a figure of 26,000 cases, each of 30 dozen eggs, for export to Great Britain. Last year it was only 6,500 cases.

The fur trade is still one of Canada's big assets. In 1927 furs to the value of \$59,000,000 were exported to France. Last year their value was placed at \$17,187,399, mostly to Great Britain and the United States.

Grain traffic handled by the Canadian Pacific for October last shows a considerable increase over that carried for October, 1930. A total of 17,221 cars was loaded last month from the Prairie Provinces as compared with a total of 12,573 cars in October, 1930.

Idle since the first week of October, the mill of the British Empire Steel plant at Sydney, N.S., is again in operation, giving full time employment of six days a week to upwards of 200 men. They are rolling steel plate for a number of orders recently placed with the company.

With a trail mileage of 7,165 miles to his credit and having to date seen 424 moose, 63 caribou and 494 deer in New Brunswick, E. L. Pope, of Boston, Mass., is back in the New Brunswick forests on his 27th hunting trip in 29 seasons. He will spend several weeks on this trip.

Nat. Cornfoot, colorful golf pro at the Canadian Pacific Langara course, Vancouver, for the past five or six years, sailed by the Empress of Russia recently for Tokyo where he will act as a golf instructor at the Fuji Shokai Club course. This organization operates a huge indoor layout in 400,000 sq. ft. outdoors light.
